

OUR MISSION IN ACTION

Opportunity

By creating new opportunities for our program members to reach their goals we further the positive impact we have in our community.

Person-Centered Thinking

Every decision, big or small, is made with our program participants' individual dreams and goals as the highest priority.

Inclusion

Inclusion is a sense of belonging, a voice that is heard, and comfort in an environment where we can be ourselves without judgment. We create a space where everyone can know they belong.

Understanding

We take time to get to know one another so we can build understanding for and with our participants.

We provide dynamic services and programs to over 700 individuals and their families throughout the Greater Phoenix Area and the San Francisco Bay Area.
